

BIODIVERSITY OF ILLINOIS CD-ROM SERIES

The *Biodiversity of Illinois* series of CD-ROMs was developed for use in grades five through nine. The three CD-ROMs in the series are Illinois-specific, supplemental and searchable. The field guide design offers images, life history information, sounds, tracks, Illinois range, status, habitat descriptions and more resources. The CD-ROMs can be accessed on both Windows® and Macintosh® operating systems.

Biodiversity of Illinois, Volume I: Aquatic Habitats
CD-ROM

Biodiversity of Illinois, Volume II: Woodland
Habitats CD-ROM

Biodiversity of Illinois, Volume III: Prairie and Edge
Habitats CD-ROM

The CD-ROMs are available to teachers in Illinois by written request on school letterhead. Send request to the following address. These CD-ROMs may also be borrowed from lending sites throughout Illinois and through the Illinois State Library system. For a list of lending locations, visit <http://dnr.state.il.us/lands/education/cdlendlocation.htm>.
